Diagrams Circuit symbols are  
used in circuit diagrams which  
show how a circuit is connected  
together. The actual layout of the  
components is usually quite  
different from the circuit diagram.  
To build a circuit you need a  
different diagram showing the  
layout of the parts on stripboard  
or printed circuit board. Wires

Wiring (connection) diagram â€”  
a diagram that shows the  
connection of an installation or its  
component devices or parts.  
Wiring diagrams show, as closely  
as possible, the actual location of  
each component in a circuit,
